Registration # 48000665

Dear Mr. Tyner:

A recent nematode sampling of the soil material at the location described below has been processed and found to be negative for nematodes injurious to citrus, and guava root knot nematode.

**131684 - Pit, consisting of 5.0 acres, located 15218 NW 316 Street, Okeechobee
(OKEECHOBEE COUNTY)**

To remain approved, all plants, plant parts (except seed), soil, sawdust, mulch, manure, potting media or peat must be burrowing and guava root-knot nematode certified if brought within 100 feet of this approved pit or storage area and accompanied by a certificate.

Signs should be posted to prevent dumping of refuse in and around the pit.

This is official notice that the number **2614** is your permanent nematode certification number.

The nematode certification covering the soil material collected from the location described above shall remain in effect for a period of 1 year (12 months) and expires **September 22, 2022**, unless revoked for cause.

If you have questions regarding your certification please contact your local inspector, Keith Clanton, at (863) 452-3885, or email: Keith.Clanton@fdacs.gov.

Sincerely,

Jason D. Stanley
Assistant Chief - Plant Inspection
Bureau of Plant & Apiary Inspection
