**LONGLEAF PINE ECOSYSTEM GEODATABASE
DATA LICENSE AGREEMENT**

This data license agreement applies to the Longleaf Pine Ecosystem Geodatabase (LPEGDB) provided by the Florida Forest Service (FFS).

Coverage Date: **Most recent at time of agreement date**

The Florida Forest Service is willing to license the LPEGDB data to you only upon condition that you accept all of the terms and conditions contained in this FFS Data License Agreement.

This license agreement (Agreement) is between the end user (Licensee) and the Florida Forest Service (FFS), and gives Licensee certain limited rights to use the FFS electronic data and documentation (Data). All rights not specifically granted in this Agreement are reserved to FFS.

Reservation of Ownership and Grant of License: The Data provided by FFS represents intellectual property. FFS retains exclusive rights, title, and ownership of the copy of the Data licensed under this Agreement and, hereby, grants to Licensee a personal, nonexclusive, nontransferable license to use the Data on the terms and conditions of this agreement. From the date of receipt, Licensee agrees to use reasonable effort to protect the Data from unauthorized use, reproduction, distribution, or publication.

Permitted Uses:

1. Licensee may use this copy of the Data on a computer network serving an unlimited number of computer terminals within the authorized Site. A Site is defined as a single building or complex of buildings with a unique street address. Licensee may not transfer, loan, rent, or lease this copy of the Data to another user outside the authorized Site. The authorized Site(s) is/are identified on page 3 of this Agreement.
2. Licensee may produce maps, tables, and/or reports, using all or portions of the Data provided. All or portions of the Data may be merged directly into reports produced by the Licensee. FFS must be cited as the source of the Data in all products, publications, or presentations containing all or portions of the Data. It is recommended that 1:24,000 scale datasets be used for projects that are at the county level, 1:100,000 for projects that are at the multi-county or regional level, and 1:125,000 for projects that are at the state level or larger.
3. Licensee may use all or portions of this Data, alone or together with other data, to perform original analysis. Any products, publications, or presentations based on such analysis must cite FFS as a source for original data used in the analysis.

Uses Not Permitted:

1. Licensee shall not sublicense, sell, rent, lease, loan, transfer, assign, or provide access to electronic versions of these Data, in whole or in part, to unlicensed third parties, including clients or contractors. Printed versions of all or portions of these Data may only be provided to clients as part of a larger service which is contracted by the client.
2. Licensee shall not use all or portions of these Data, in electronic, print, or other medium, to create products for distribution and sale that rely principally upon these Data. Additionally, Data shall not be used in a web application or map service unless special written permission is granted by FFS.
3. Licensee shall not alter any substantive feature or characteristic of these Data. Alterations for aesthetic purposes, such as changes to the style and/or color of markers, polygon shadings, or fonts, are permitted.

Term: The license granted by this Agreement shall commence upon Licensee's receipt of the Data and shall continue for a period of one (1) year from the date of commencement of the license. FFS shall consider the date of commencement of the license to be the date the Data was sent to the Licensee by FFS. At the end of one year the license shall expire, and the Licensee may not use the data for any new projects, maps, presentations, or analyses. The data may be maintained only for archival reference to past projects. This license may be renewed by authorization of a new license agreement. An updated version of the Data will be provided with each renewal. FFS reserves the right to terminate this Agreement at any time for Licensee's material breach of this Agreement. Upon expiration or termination of this Agreement, Licensee shall no longer be permitted any of the uses of the Data provided by this Agreement.

Limited Warranty: If the media upon which the Data are provided prove to be defective in materials and workmanship under normal use and service within thirty (30) days from the date of commencement, FFS will provide a new copy of the Data to the licensee. The accuracy and completeness of the Data, and the opinions based thereon, are not guaranteed. Every effort has been made to provide accurate data in this package. The Licensee acknowledges that the Data may contain some nonconformities, defects, errors, and/or omissions. FFS does not warrant that the Data will meet Licensee's needs or expectations, or that all nonconformities can or will be corrected.

Liability: FFS shall not be held liable for the accuracy and completeness of the Data, or opinions or conclusions drawn from the Data. FFS does not invite reliance on the Data. The Data are not always based on comprehensive or site specific field surveys. Therefore, the Data should not be regarded as a final statement on the biological resources of the location provided, nor should the Data be substituted for on-site surveys. FFS encourages the Licensee, at Licensee's convenience, to communicate to FFS any errors or omissions found in the Data. Such comments serve to improve the quality of FFS's data.

Waivers: No failure or delay by FFS in enforcing any right under this Agreement shall be construed as a waiver of any future or other exercise of such right by FFS.

Remedies: Failure of FFS to discover or object to any inappropriate use, shall not constitute its consent thereto or waiver of its rights. In the event Licensee's use of the Data violates the terms of this License Agreement, FFS may forbid and enjoin Licensee's further use of the Data.

Entire Agreement: The parties agree that this constitutes the sole and entire agreement of the parties as to the matter set forth herein and supersedes any previous agreements, understanding, and arrangements between the parties relating hereto and is effective, valid, and binding upon the parties.
