Great Horned Owl

Florida Department of Agriculture and Consumer Services
Commissioner Wilton Simpson

Welcome to Pine Log State Forest, established as Florida's first state forest in 1936. There are a variety of birds that make their home in the sandhills, flatwoods, cypress ponds and titi swamps that cover the forest. Streams and several small lakes and ponds attract waterfowl especially in the winter months.

The trails on Pine Log State Forest offer birdwatchers the best opportunities for viewing many common and uncommon species. The Campground Loop Trail, especially around the cypress pond is where you are likely to see pileated woodpeckers and prothonotary warblers. Visit the Dutch Tieman Trail where great crested flycatchers and great horned owls are likely to be spotted.

Trail maps for Pine Log State Forest are available at each trailhead kiosk.
