Aquaculture	597.020	5L-1.001	General Requirements and Intent	Implements technical changes updating the address of the Division of Aquaculture, updates the publishing year of the most current Model Ordinance cited, replaces an incorrect number on a list, and updates a web link that the Federal government has changed.	X				X
Aquaculture	597.020	5L-1.002	Definitions	Implements technical changes updating the publishing year of the most current Model Ordinance cited. Technical changes for clarification. Adds definition of Aquaculture Use Zone to be consistent with 5L-3.	X				
Aquaculture	597.020	5L-1.003	Shellfish Harvesting Areas and Standards	Amends the rule to allow for quarantine controlled harvest of shellfish as described in the Model Ordinance, removes the administratively closed St. Marks Shellfish Harvesting Area, adds the Choctawhatchee Conditionally Restricted Eastern Harvest Area, new management and classification boundaries for Wakulla Harvest Area and Cedar Key Harvest area. Per industry request modifies existing management plans for Pine Island East and West.	X	X			X
Aquaculture	500.10, 500.172,	5L-1.004	Production and Market Standards	Implements technical changes updating the Division's address and a form revision date.	X				
Aquaculture	597.020	5L-1.005	Shellfish processing Plant Certification License	Implements technical changes updating the Division's address and a form revision date. Amends the rule by removing an outdated requirement for an unnecessary FWCC license, thereby helping businesses which strictly deal with aquaculture fishery products. Eliminates a redundant, reapplication requirement for processing plants which fail their initial inspection.	X	X			X
Aquaculture	500.121(1), 500.172,	5L-1.006	Compliance and Penalties	Implements technical changes updating form revision dates and reformats rule text for ease of reading.	X				
Aquaculture	597.020	5L-1.007	Container Identification, Terminal Sale Date, Prohibitions.	Amends the rule by restating harvester responsibilities in a clear fashion, to assist their understanding and assist our sister agency's understanding. Amends bulk tagging requirements and who is responsible.	X				
Aquaculture	597.020	5L-1.008	Shellfish Handling	Rearranging rule text to include table of new time/temperature requirements. Moved tempering to this rule. Added rule language for replant/resubmergence.	X				
Aquaculture	597.010(15), (19), 597.020	5L-1.009	Shellfish Relaying	Amends the rule by eliminating incorrect language that was inserted during last rule revision (2002). Adds language to clearly describe biotoxin relay steps. This benefits the shellfish industry.	X				
Aquaculture	597.020	5L-1.010	Buildings and Facilities	Implements technical changes by updating hand washing facility temperature from 110 degrees F to 100 degrees F, for consistency with the National Shellfish Sanitation Program.	X				X
Aquaculture	597.020	5L-1.011	Equipment for Shellfish Processing	Implements that shellstock shippers are not required to install and maintain a three compartment sink. Amends the rule by adding language to include wet storage and adds the words "food safe" to make it easier to understand what kind of materials are required to be used in shellfish wet storage and depuration systems.	X				
Aquaculture	597.020	5L-1.012	Sanitary Operations	Implements technical changes updating the Division's address.	X				
Aquaculture	597.020	5L-1.013	Plant Operations	Implements technical changes updating the publishing year of the most current Model Ordinance cited and strikes through an incorrect citation to 5L and replaces it with the correct one. Amends the rule by adding clarifying language to distinguish which types of wet storage require ultraviolet light systems and adds language describing corrective action for oysters failing to cool by specific times. Removes Tempering which is added to 5L-1.008.	X	X			X
Aquaculture	597.020	5L-1.014	Heat Shock Method	Amends the rule to make sure language is consistent with the rest of 5L-1.	X				

2016-2017 FDACS Proposed Regulatory Plan

Division	Law(s) Implemented	Rule Number	Rule Title	Description revisions to rule	Simplify/ Clarify	Increase Efficiency	Delete Obsolete or Redundant Rules	Regulatory Cost Reduction	Improve Inter-Agency Coordination
The following rules will implement existing statutory authority or revise or repeal existing rules. (Section 120.74(1)(b), Florida Statutes.)					Purpose of Rulemaking				
Aquaculture	597.020	5L-1.015	Depuration Plant Operations	Amends the rule by incorporating relevant portions of the rule with wet storage of shellfish. Eliminates confusing language regarding draining of certain treatment tanks and therefore standardizes the cleaning procedure. Adds in Ultraviolet Unit requirements.	X				
Aquaculture	597.020	5L-1.016	Depuration Shellfish Sampling Procedures	Amends the rule to make sure language is consistent with the rest of 5L-1.	X				
Aquaculture	597.020	5L-1.017	Depurition- Process Water Treatment Standards	Amends the rule by incorporating text to describe the substantially different requirements for wet storage process water. Current rule erroneously assumes depuration water and wet storage water testing criteria are the same. This amendment would align Florida's program with the National Shellfish Sanitation Program. Implements a technical change by replacing an outdated scientific name for an organism with the modern scientific name.	X	X			X
