Dear Leslie R. Fortin:

A recent nematode sampling of your nursery described below has been processed and found to be negative for burrowing and guava root-knot nematodes.

Block - 5566 consisting of 1.5 acres located at 563 West Kelly Park Road, Apopka (ORANGE COUNTY)

Your plant material on attached certification list, grown at the locations described above, meets the **(TYPE I)** nematode certification requirements of **Texas and Louisiana**.

This is official notice that the number **2035** is your permanent nematode certification number.

To remain approved, all plants, plant parts (except seed), soil, sawdust, mulch, manure, or peat used in this area of your nursery must be burrowing and guava root-knot nematode certified and accompanied by a certificate.

Nurserymen are reminded that the nematode certification covering the plants listed in this letter shall remain in effect for a period of 1 year (12 months) and expires **July 24, 2023**, unless revoked for cause.

Your official nematode certification list, can be found on our department website through the following link:
<https://www.fdacs.gov/nematode>

If you have questions regarding your certification please contact your local inspector, Alexander Arbelaez, at (407) 394-6117, or email: Alexander.Arbelaez@fdacs.gov.

Sincerely,

Tyson R. Emery
Chief - Plant Inspection
Bureau of Plant & Apiary Inspection

cc: Alexander Arbelaez, 214, R2A1
